What People Are Saying About **Dr. Gail Dines' Presentation** on Hypersexualized Media and Porn as the Public Health Crisis of the Digital Age

- “ Dr. Dines knocked my socks off and blew my eyes open! I will be reading her book and screening my patients more for porn exposure. We have to teach our kids that sex is about love and sharing, not dominance and degradation. - **Healthcare Provider**
- “ Amazing lecture! I called my kids to discuss porn last night. - **Pediatrician, Annual Conference of the American Academy of Pediatrics (AAP)**
- “ Wow. Hands down, this was the most effective and shocking lecture I've been to in years. Lectures like the one Dr. Dines gave are the reason why I go to the Annual Meeting of the American Academy of Pediatrics - to keep me on the cutting edge. - **Healthcare Provider, AAP Conference**
- “ Dr. Gail Dines gave the best plenary session ever. Provocative. Eye opening. Very motivating ... I will be talking about this one to parents and colleagues for a long time. - **Pediatrician, AAP Conference**
- “ Blown away as to finding out what the youth of today are confronted with. - **Victim Rights Advocate Conference attendee**
- “ I now feel much better informed about how to advise parents I work with. - **Child Protection conference attendee**
- “ Gail Dines gave one of the most powerful lectures I have ever heard! - **Pediatrician, AAP Conference**
- “ This was the talk of the conference. I don't know about other pediatricians, but I had not connected the dots between violence against women and porn. The pornification of our society is our next health crisis ... more information and advocacy is needed from us. - **Pediatrician, AAP Conference**
- “ This was one of the most powerful talks I have ever seen. I wish every single one of the families I serve – as well as my own family and friends – could see it. - **Healthcare Provider**
- “ Hearing Dr. Gail Dines speak was mind-blowing for me... I had no idea how violent and degrading pornography has become, or that our children are being targeted by this despicable industry. I support Culture Reframed because our sons and daughters are worth so much more than this. - **Parent**
- “ Thank you for creating the Parents Program so we can learn more about how to talk to our children and peers about this topic. - **Victim Rights Advocate Conference attendee**
